

BRAN SEPARATOR COMBINATION

Unbeatable Price Tag

An Easy Maintainable, Low Cost Unit

The combination can easily be installed.

Can deliver 20 tons of maize on a nine hour shift.

No skilled labour necessary.

Our well known 5.5 KW G2 Hammer Mill is fed by a sealed screw conveyor to prevent water spillage.

Milled maize is gravity fed to a 3-stage vibrating screen, where maize is separated from the bran.

GENTAG

Two stage take off screw conveyors
feed the semi-fine maize
to our high capacity
G12 Hammer Mill.

The G12 delivers up to 2 300kg
of fine milled maize
per hour
for bagging.

The highly efficient
G12 is driven by a
22 KW Electrical Motor.

An easy adjustable soft starter is fitted to prevent
start up peaks and secure ampere control.
