

FLOAT BED : SEPERATING UNIT

A Versatile, High Capacity Gravity Feed Separation Unit

- ✓ Two specially designed concave blowers deliver a controllable amount of air to the screening area;
- ✓ A fine pitch screen allows air to pass through lifting the grain;
- ✓ The rocker unit mounted on the side of the screen bed, allows for absolute clean separation of unwanted products such as low quality grain, contaminated grain, splits as well as seeds.
- ✓ The unit is electrically or P.T.O. Driven.
- ✓ Discharge can be by way of venturi blowers or screw conveyors.
- ✓ Capacities from 4 to 10 tons per hour.
- ✓ Our range includes vibrating and roller type screens.
